

LOON 126

The Loon series changed the way paddlesports viewed recreational kayaks.

Today, the Loon series is one of the world's most advanced recreational kayak.

Our latest Loon features the ACS2 seat, creating the most advanced and best-fitting cockpit available.

It also includes a removable workdeck, supplying space for customization, cameras, gear and water; dry storage; and a USB port to keep your gadgets charged, even after hours on the water.

OLD TOWN PDL DRIVE

Our award-winning PDL Drive system keeps you easily in command with your hands free for fishing — simply pedal forward and backward. Low maintenance and saltwater-ready, it mounts in seconds and in shallow water it can tip up to its patented docking station in an instant. Plus, it's backed by a 5-year warranty.

AVAILABLE ON THE:

- PDL 106
- PDL 120
- BigWater PDL 132
- Salty PDL 120
